[Santoshi Parte](#)

EDUCATION

M.Sc. Information Technology (AI) - pursuing
University of Mumbai, Kalina (2025 – 2027)

Bachelors of Science in IT, CGPA: 9.05
AVM's KBP Degree college, Thane (2022-2025)

HSC, Science, 54.33%
Jnana Sarita Junior College, Mulund(W) (2022)

SSC, Percentage: 81.80%
Sankalp English School (2020)

SKILLS

- **Programming Languages:** Python, SQL
- **Machine Learning & Deep Learning:**
PyTorch, TensorFlow, Scikit-learn,
XGBoost, OpenCV
- **Computer Vision:** YOLO (v8, v11), Object
Detection, Image Segmentation
- **Generative AI & LLMs:** LangChain,
LlamaIndex, Ollama, OpenAI API, RAG,
Prompt Engineering
- **Vector Databases:** Qdrant, FAISS
- **Web Frameworks & APIs:** FastAPI, Flask,
REST APIs
- **Data Analysis:** NumPy, Pandas
- **Tools & Platforms:** Git, GitHub, Docker

SANTOSHI PARTE

AI/ML ENGINEER

Aspiring AI Developer with practical experience in Python, machine learning, and real-world project development. Strong interest in developing intelligent systems, with a focus on improving problem solving and coding efficiency.

EXPERIENCE

Softlabs Group | AI Developer (Oct 2024 – Present)

- Worked on real-world AI projects and gained hands-on experience in machine learning, deep learning, computer vision, and AI application development.
- Developed and deployed AI solutions using Python and modern AI frameworks.
- Collaborated with teams to build scalable and practical AI-driven applications.

PROJECTS

SIGN LANGUAGE RECOGNITION SYSTEM

- Developed a deep learning-based sign language recognition model for gesture classification.
- Performed dataset preprocessing, model training, evaluation, and real-time inference.
- **Tech Stack:** Python, Tensorflow/Pytorch, Opencv, YOLOv11.

RAG- BASED AI ASSISTANT

- Built a document-aware chatbot using Retrieval-Augmented Generation (RAG) architecture.
- Implemented semantic search, vector embeddings, and LLM-powered response generation.
- **Tech Stack:** Python, FAISS database, Ollama (TinyOllama), FastAPI, React.

OBJECT DETECTION APPLICATIONS

- Developed multiple object detection solutions using YOLO for custom datasets.
- Performed annotation, training, evaluation, and inference optimization.
- **Tech:** YOLOv8/YOLOv11, OpenCV, PyTorch.
